

ANNUAL REPORT **2010** | PARAMOUNT BED CO., LTD.

Statement:

# As Human, for Human

Paramount Bed Co., Ltd., founded in 1947, is a pioneer in the field of medical beds. Using its own unique integrated production system, it has been providing products designed not only to improve conditions for convalescing patients, but also to facilitate the work of caregivers for more than half a century. With the aging of the Japanese population, in recent years it has expanded its scope of business to cover facilities for the elderly and home nursing care, developing home-care beds and various other types of welfare equipment. These initiatives are in line with Paramount Bed's goal of creating a patient-friendly healthcare environment.

The Paramount Bed group consists of Paramount Bed and 7 consolidated subsidiaries and 2 affiliated companies (as of March 31, 2010). In the fiscal year to March 2010, it had net sales of ¥45,598 million, operating income of ¥4,753 million, and net income of ¥2,195 million. Paramount Bed is Japan's leading maker of medical beds and has acquired a strong reputation, as reflected in its domestic market share of approximately 70% (Paramount Bed's estimate).

---

**Disclaimer Regarding Forward-Looking Statements**

The information contained in this annual report is given for the sole purpose of providing information regarding the business performance of Paramount Bed Co., Ltd. during the fiscal year ended March 31, 2010 and is not intended to solicit investment in any securities issued by the Company. Any statements with respect to Paramount Bed's current plans, strategies, and forecasts are forward-looking statements based upon information available as of March 31, 2010 and involve known and unknown risks and uncertainties. Actual events and results may differ materially from those anticipated in these statements.

We strive to create  
a comfortable healthcare environment  
with advanced technology and  
consideration towards users.

**Kyosuke Kimura**  
President and Representative Director

Thank you for your strong support for Paramount Bed. The following are the general conditions of business and the settlement of accounts for the 62nd term of the Company (from April 1, 2009 to March 31, 2010).

### 60th Anniversary of the Incorporation of Paramount Bed

On May 25 of this year, Paramount Bed celebrated the 60th anniversary since its incorporation in 1950. We would like to express our heartfelt gratitude to our shareholders and everyone involved and to acknowledge that this achievement is wholly the result of their warm support and backing. In commemoration of this 60th anniversary of the company's incorporation, the year-end dividend for the period ended March 2010 was an ordinary dividend of ¥15 plus a commemorative dividend of ¥5 for a total of ¥20 per share.

### Current Fiscal Year Performance

In the current (consolidated) fiscal year, net sales including those of subsidiaries remained strong principally in the Japan market, finishing at ¥45,598 million (up 14.5% year-on-year). Viewed by customer sector, domestic sales targeting home nursing care, which had continued to hold steady, saw a significant increase in revenue, and sales to healthcare and care facilities for the elderly, which had been sluggish over the last few years, reversed for the first time in four periods.

Next, as for earnings, the separate figures for Paramount Bed alone showed an increase in income due to an increase in sales and improved production efficiency achieved through plant reorganization, which along with other factors resulted in operating income coming in at ¥4,753 million (up 157.9% year-on-year). Ordinary income was ¥4,615 million (up 340.9% year-on-year) and net income was ¥2,195 million (loss of ¥484 million in the previous year).

With regard to dividend payments in the next term, a disbursement of ¥15 per share is planned for both the interim and fiscal year-end.

### Medium to Long Term Business Strategy

We consider the augmentation of our healthcare and nursing care businesses as well as an increase in our operating field essential for future business expansion. In the domestic healthcare and care facilities for the elderly, we plan to solidify collaboration with PARATECHNO Co., Ltd., a subsidiary specializing in maintenance, and spur demand by increasing our product line, service menu and service capabilities.

In the home nursing care area, we will aim to further increase sales of the JIS-certified electric home care bed Rakusho "S" series which has had strong sales since it went on the market in April of last year. Sunnetwork Corporation, a subsidiary whose principal business is rental broking, will expand its service network for welfare equipment rental businesses nationwide.

As for product development, we are working to develop and offer products that contribute to safety and peace of mind and met the various safety standards. In addition, we plan to continue to hold seminars for people involved in healthcare and welfare as well as welfare equipment rental businesses and other specialists so that our beds are used in a safe manner.

In overseas markets, we intend to focus on the Near and Middle East, China and Southeast Asia where the markets are expected to see growth in the coming years, and are planning community oriented sales operations including posting sales staff locally. In addition, we are promoting cost reductions and expanding product lineups at our overseas subsidiaries so as to meet the needs of the respective regions.

As stated above, we will strive to improve performance by strengthening collaboration among the companies in our domestic and overseas groups as well as demonstrating our comprehensive group power.

## Launch of the New KA-66000 Series High Quality I.C.U. Bed

In January 2010, Paramount Bed announced the launch of the KA-8560 series which underwent a complete model overhaul. The new KA-66000 series ICU hospital bed offers “high quality care” through high quality features (such as a safety side rail, an integrated digital scale, and an X-ray cassette holder) which are suitable for ICU hospital beds.

### Overview

The handheld controller can be fixed to the side rail.

Storage space for the Nurse Control Panel and Digital Scale

## Launch of the New Air Mattress “COCOCIA”

In May 2010, Paramount Bed announced the launch of the new air mattress, “COCOCIA”. The greatest feature of COCOCIA is “Built-in pump” which realizes the reduction of the installation space of beds. The big features of this innovative air mattress are as follows:

1. Built-in pump system
2. Body pressure dispersion system with block control
3. Many pressure modes for various scenes
4. Dehumidification function

## Renewal of the New KY-700 Series Nursing Wagon

In February 2010, Paramount Bed announced the renewal and launch of the KY-700 series. The new design is aimed to enhance the following tasks in hospital wards:

- Easy to organize the items in order
- Easy to clean
- Easy to maintain cleanliness

The matters listed above are deeply related with Japanese-style “Kaizen” activities.

Accordingly, this Japanese-style wagon promotes “Kaizen” activities in a hospital ward with the following features:

- 1. Various variations to meet the needs for the management in a hospital ward**
- 2. Special design to keep the nursing wagon clean**
- 3. User-friendly designed transportation handle**
- 4. Noise reduction features on caster and tray**

## Release of the New KF-6000 Series Bed Side Cabinet

In March 2010, Paramount Bed announced the release of the new KF-6000 series bed side cabinet. In order to improve the easiness to clean, the safety, and the body weight, we adopted resin as the material for the cabinet. The strong features of the new cabinet are as follows:

### 1. Variety of combinations

In order to meet the various needs in a hospital ward, the KF-6000 series has many types of cabinets. (Examples: Standard type, Middle type, High type, etc.)

### 2. Sophisticated design for safety and user-friendly

A round-edged design, and concealed sub-table and drawer handles enhance patient safety.

### 3. Many types of accessories

The following accessories are available according to the user's preference:

- Lift lock unit
- Foot light
- Safe box
- Wardrobe unit (for High type cabinets)

## Hospital Beds

Beds must provide safety, comfort and ease of operation. Our hospital bed line offers a full range, from sophisticated to standard models. The Doge is a high quality nursing-care bed that features sophisticated functionality and design. Its robust, high-quality manufacture supports modern medical care.

### ● Acute care (for special rooms)

Doge

### ● Advanced, emergency use

KA-64000 series

KA-66000 series

## Transfer Stretcher Trolley

The Stretcher Trolley transfers patients safely, helping nurses and reassuring patients.

KK-728

## Beds for Elderly-Care Facilities

Falling out of bed can be a cause of serious injury for residents of elderly-care facilities. Our ultra-low Callisto series beds reduce the risk of harm in the event of a fall. (Photo shows bed fitted with Thestor shock-absorbing mattress)

Callisto series

Woody series

## Pediatric Bed, Bassinet Cart

The Pediatric Bed (KB-655) is equipped with many functions to ensure safety and operability, and is friendly to both children and nurses. The Bassinet Cart (KB-115, 116) is user-friendly for both newborn infants and their mothers. Its design, developed with the image of a young leaf in mind, gives newborns a sense of security as if they were wrapped up inside it. Green is suitable for both boys and girls and is said to be effective in calming people and softening their mood. The design of the Bassinet Cart has been highly evaluated, and won the Good Design Award 2007.

KB-655

KB-115, 116

## Home-Care Products

Demand for rental home-care beds has grown rapidly since the start of the nursing-care insurance program. The Rakusho "S" series is designed to cater to the varied needs of different users. The Scot-klean (Uri-comfort) is a urine collector that automatically activates when it detects the presence of urine.

Rakusho "S" series

Scot-klean (Uri-comfort)

## Beds for the Home (INTIME)

Everyone spends time in bed, and the INTIME models are designed to facilitate deep, refreshing sleep.

INTIME 7000 series

Style Port Mattress

## Bed Peripherals

### ● Mattresses

With elasticity similar to the human body's, the Ever Fit Mattress reduces the resistance produced when users turn over on the bed and it also stabilizes the posture during sleep.

The mattress is reversible and both sides have different functions that users can choose to suit their condition, build and preference.

We also offer the versatile Preglar Mattress, for use in hospitals, elderly-care facilities, and home care.

Ever Fit Mattress

Preglar Mattress

### ● Other Products

These products are based on original concepts developed by Paramount Bed. We also offer a wide range of bed peripherals, such as I.V. stand, designed to maximize usability.

Swing arm assist bar

Nursing wagon

Patient lifter

I.V. stand

## Business Review in Fiscal 2010

The improved economic situation abroad, government emergency economic measures and other factors have put Japan's economy during the current consolidated fiscal year on a track to recovery from the severe worldwide financial crisis, but with a high unemployment rate and autonomy still weak, the future remains uncertain.

In the medical service industry, the previous policy of reducing social security costs has effectively been withdrawn and medical care fees were revised upward for the first time in 10 years. In addition to bolstering financial resources for emergency, pediatric and obstetric healthcare which have come to be emblematic of the healthcare collapse, remuneration for hospitalized treatment has also been raised.

While, in the field of welfare care for the elderly, a decision was made to revise compensation for nursing care upward for the first time since the start of the long-term care insurance. These revisions were implemented in April 2009 and have encouraged more people to become involved in nursing care by improving the treatment of such personnel. Additionally, in March 2009, the JIS certification mark system was launched for electric home care beds. From the following April, demand has been stimulated as bed manufacturers have obtained JIS certification and marketed products affixed with the JIS certification mark.

In this domestic business environment, sales to care facilities continued to experience difficult conditions as in the preceding year until the second quarter for both medical facilities and elderly care facilities. However, since the third quarter, sales performance moved toward a recovery, outdoing the preceding fiscal year. Sales aimed at the home care market, which had been strong, saw a significant increase due to favorable sales of Rakusho "S" series products affixed with the JIS certification mark.

With respect to product research and sales, in addition to the April launch of the Rakusho "S" series electric home care beds as mentioned above, there was also the release of Sleep Scan, a sleep management system which measures sleeping and waking state rhythm while a person is asleep, and L'za, a chair for dialysis and chemotherapy treatments.

In new business, our subsidiary PARATECHNO Co., Ltd. has made its full-scale entry with sales of Bed Washer, an apparatus that cleans the entire hospital bed.

As for overseas expansion, as part of our effort to optimize global production in our domestic and overseas plants, we have instituted a production system in which partially-finished materials are manufactured at our subsidiary Paramount Bed (China) Co., Ltd. and then assembled for sale at the subsidiary Corona Medical S.A.S. in France.

Note: The approximate exchange rate in effect on March 31, 2010 was ¥93.04 = U.S.\$1.

When results for the current consolidated fiscal year are viewed according to sales by type of user (on a non-consolidated basis), sales to care facilities, which had continued to decline, rebounded to grow 3.2% compared to the previous fiscal year. On the other hand, those targeting home care which had continued to rise steadily, jumped 58.5% over the previous year due to favorable sales of the Rakusho "S" series.

Next, as for our consolidated subsidiaries, performance of Corona Medical S.A.S. in France, whose managerial framework is being reconstructed, deteriorated, but our other subsidiaries largely held steady.

Net sales during the current consolidated fiscal year arranged according to our main products are shown in the Graph 1.

As a result, net sales for the current consolidated fiscal year were up ¥5,776 million (up 14.5% year-on-year) to end at ¥45,598 million.

Due to increased sales on the strength of the Rakusho "S" series, improved production efficiency from an increase in manufacturing, an improved cost-to-sales ratio attributable to plant realignment as well as other factors, operating income finished up ¥2,910 million (up 157.9% year-on-year) to end at ¥4,753 million.

Next, ordinary income rose on a decline in non-operating expenses compared to the previous fiscal year, increasing ¥3,568 million (up 340.9% year-on-year) to end at ¥4,615 million. Although

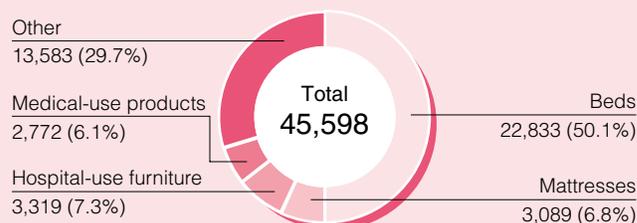

net income posted an extraordinary loss due to restructuring costs for Corona Medial S.A.S., it still increased ¥2,680 million over the previous year to end at ¥2,195 million.

Geographic segment earnings are as follows. Net sales and operating income/loss of each geographic segment include internal transactions between segments.

Net sales of ¥42,936 million (up 16.7% year-on-year) and operating income of ¥5,220 million (up 123.9% year-on-year) were posted for Japan. Net sales amounted to ¥2,325 million (up 2.6% year-on-year) and operating income stood at ¥297 million (down 10.7% year-on-year) in Asia, while net sales of ¥2,108 million (down 17.6% year-on-year) and an operating loss of ¥383 million (loss of ¥437 million during the previous year) were recorded for Europe.
